

## **Roger Burnett receives Branch Commendation**

At the recent Branch Annual Meeting of the Northern Branch of the Institute of Horticulture, held at Howick Hall, Northumberland, Roger Burnett, Head of Scarborough Borough Council's Parks and Open Spaces, received the Annual Branch Commendation for his contribution to horticulture of the North of England. Roger can be seen receiving his award from Tony Girard FI.Hort, the President of the Institute of Horticulture at the recent annual meeting.

Roger's considerable length of service with Scarborough, from his beginnings over 30 years ago, has led him and the people of Scarborough to a string of richly deserved awards, culminating in a Gold Award in last year's Britain in Bloom competition. Like all good managers, Roger has made a particular point of involving all of his staff in the decision making processes that affect their place of work and their hard work has also been rewarded.

Through Roger's hard work and dedication to duty and the authority has won them three Gold Medals at RHS Tatton Flower Show and the National Flower Bed Competition.

Roger also works tirelessly as a judge for the Yorkshire in Bloom competition and the IoH Northern Branch Committee felt this year that Rogers's hard work and dedication deserved recognition.
