

RHS Green Plan It Challenge

...rethinking the role of green spaces

Inspire the next generation to grow!

We're on the lookout for volunteers from the horticultural industry to mentor small teams of 12-14 year old students through the RHS Green Plan It Challenge 2018.

Over ten weeks you'll help students to research, plan and build a model garden that they might like to see created in their school or community.

Find out more or sign up:

Becoming a mentor is an amazing opportunity to share your skills and knowledge with young people, to help them learn about the power of plants, and to challenge their perceptions of horticulture.

Throughout the challenge, you'll be there to providing inspiration, guidance and tips on how to design a garden from scratch.

Sign up, or find more information at:

"A great way to transfer your own enthusiasm for gardening, design and wildlife to school children. I loved it."

- John Flannery, SLR Consulting
